

Read the text about orcas. Some of the lines are correct. Some have a word that shouldn't be there. Write this word in the box next to the line. If the line is correct put a tick (✓) in the box. The first two lines have been done for you.

1	Orcas, are also called killer whales, are the largest	are
2	members of the dolphin family. In contrast to their name,	✓
3	orcas are mostly harmless to human beings. Then	
4	there are no old records of orcas ever attacking humans.	
5	Orcas are very sociable animals that live in groups	
6	or pods and find them food together. You can rarely	
7	see an orca which travelling around individually.	
8	Although the total number of orcas worldwide is not	
9	unknown, there are have thought to be about 100,000	
10	orcas in the world's oceans today. There has been a ban	
11	on still hunting orcas since the beginning of the 1980s	
12	but many marine scientists believe if their population	
13	is decreasing because of human activities like	
14	overfishing and oil spills are reducing their food supplies.	
15	Some orcas have been captured and taken to such	
16	aquariums and the theme parks all over the world.	
17	The most famous of them whales, Keiko, was the star	
18	of the movie <i>Free Willy</i> in 1993. The orca was freed off	
19	the coast of Iceland and swam across to Norway.	
20	However, he was not been able to adapt fully to life in	
21	the wild and died in 2003.
